USEFUL INFORMATIONS

COVID-19 PREVENTION RULES

The Fly-In organization will be in compliance with current national rules relating to the prevention of Covid-19:

TRAVEL ON BUS: the general rule is to keep the spacing of at least one meter between people who do not belong to the same family. A new law allows to decrease the spacing if in the bus there is an air recirculation and treatment and if the temperature is measured to all passengers before accessing the bus. We are evaluating the idea of renting 1 bus or 2 buses depending on the number of participants to guarantee distance.

AT THE RESTAURANT: all restaurant activities are obliged to maintain the correct distance between clients at the table. This means that instead of a large table several people, we will have smaller tables slightly spaced apart...or a larger table with few people.

CULTURAL VISITS: The maximum number of participants in a cultural visit depends on the size of the place you are going to visit. If necessary, we will divide the participants into two groups who will take turns visiting the tourist spots.

If the emergency situation were to worsen and we were forced to cancel the event, the paid participation fee will be refunded 100%
